Portland 15 of 15 Fund – Series A

April 20, 2018

How risky is it?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”. In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

No guarantees

Like most mutual funds, the Fund doesn’t have any guarantees. You may not get back the amount of money you invest.

Risk rating

The Manager has rated the volatility of this Fund as **medium**.

Because this is a new fund, the risk rating is only an estimate by the Manager. Generally, the rating is based on how much the fund’s returns have changed from year to year. It doesn’t tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund’s returns, see the section “What are the risks of investing in the Fund” in the Fund’s simplified prospectus.

How has the Fund performed?

This section tells you how Series A units of the Fund have performed since inception. Returns are after Fund expenses have been deducted. These expenses reduce the Fund’s returns.

Year-by-year returns

This information is not available because the Fund has not been distributing this series of units under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

This information is not available because the Fund has not been distributing this series of units under a simplified prospectus for a full calendar year.

Average return

This information is not available because the Fund has not been distributing this series of units under a simplified prospectus for 12 consecutive months.

Who is this Fund for?

Investors who are:

- seeking long-term capital growth through exposure to global equities
- able to accept some variability of returns
- investing for the medium to long term

 Do not invest in this Fund if you are adverse to investments in foreign equities or need a steady source of income.

A word about tax

In general, you pay tax on any money you make on the Fund, including your share of the Fund’s earnings and on taxable capital gains from redeeming your investment. How much tax you pay depends on your tax laws where you live and whether or not you hold the Fund in a registered plan and the type of earnings of the Fund (e.g. interest, dividends, capital gains, etc.). In general, you don’t pay tax on investments held in a registered retirement savings plan, tax-free savings account or other registered plan.

If you hold your investment outside of a registered plan, you will receive a tax slip that shows your share of the Fund’s earnings. You must include the amounts shown in your income whether you get them in cash or have them reinvested. You must calculate your taxable capital gains from a redemption.

Ask about other funds and investments that may be suitable for you at a lower cost.
