### Potential Risks

While the Manager, EIF and EIB and Bonnefield exercise due diligence throughout the investing process, no guarantees can be given to offset a risk of loss and investors should consult with their Financial Advisor prior to investing in the Fund. The Manager believes that given the character of the private investments that are making up the majority of the Fund’s holdings, the Fund has less exposure to the market risk than a similar fund invested in publicly listed securities. The Manager believes the following risks are key to the Fund’s performance: failure to meet commitments, risks related to the private portfolio investments, agriculture industry risk, equity risk, general economic and market conditions, liquidity risk and marketability and transferability of units risk. Please read the “Risk Factors” section in the Offering Memorandum for a more detailed description of all the relevant risks.
