INVESTMENT OBJECTIVE

- The investment objective of Portland Global Sustainable Evergreen LP (the “Partnership”) is to preserve capital and provide above average long-term returns.
- The strategy intends to be focused on investments initially in the following:
 - Private equities believed to be in sustainable systems including farmland.
 - Private equities in renewable energy and energy efficiency.
 - Other equity or debt securities, a portion of which may have provisions resulting in equity ownership of the issuer of the debt or the underlying asset if certain events occur.

HOW THE FUND IS MANAGED

- The Partnership invests in:
 - The Portland Global Energy Efficiency and Renewable Energy Fund LP (“PGEEREF”), which invests in the B units of the Global Energy Efficiency and Renewable Energy Fund (“GEEREF”), advised by the European Investment Fund (“EIF”) and sub-advised by the European Investment Bank (“EIB”).
 - Bonnefield Canadian Farmland LP V, advised by Bonnefield Financial Inc. (“Bonnefield”).
 - Complementary public securities, preferred shares and debt securities and investment funds, exchange traded funds and mutual funds which may or may not be managed by the Manager.
- The Partnership may borrow up to 20% of the total assets after giving effect to the borrowing.

KEY REASONS TO INVEST

- Doing Well, by Doing Good - this element forms part of the investment decisions that the Manager makes and will make in the Partnership.
- Selecting Specialty Investment Managers with track records and a focus on:
 - Attractive risk adjusted returns and sustainable processes, in particular.
 - Targeting ~10% returns per annum.
 - Sustainable Development Goals recognized by domestic and international groups like the United Nations.
- Sustainable investing comprises investment strategies that integrate environmental, social, and governance (“ESG”) practices into investment decisions when assessing risk and opportunities within a portfolio.

PORTLAND GLOBAL SUSTAINABLE EVERGREEN LP

(as at March 31, 2024)

GEEREF

- A private equity and infrastructure fund of funds, investing in regional funds, providing equity or quasi equity primarily for energy efficiency and renewable energy projects in developing countries and economies in transition.
 - CO-INVEST with the EU with downside protected by public sector capital with a 10% per annum preferred return mechanism for B unitholders.
 - Provides ACCESS to specialized infrastructure funds/geographies exposed to high growth.
 - Provide access to renewable and affordable energy to underserved communities in emerging nations.
 - Institutional quality oversight and governance by the EIB and EIF.

BONNEFIELD CANADIAN FARMLAND LP V

- Investments in high-quality “core” farmland primarily through non-leveraged sale-leasebacks with progressive farmers.
 - ACCESS to a diversified portfolio of high-quality crop-growing farmland across Canada’s farming regions with differing agricultural characteristics and crops via multiple tenants.
 - Bonnefield received an “A” rating from the United Nations-supported Principles for Responsible Investment whose goal is to incorporating ESG issues and support those who incorporate these issues into their investment decision making and ownership practices.
 - Targeting ~8% – 12% return per annum.
 - Oversight through the Standards of Care program, a leading set of industry best practices in the Canadian agricultural sector.
 - Similar attributes to a real return bond, by way of providing a hedge against inflation and global water shortage given Canada’s abundance of water.

POTENTIAL RISKS

While the Manager, EIF and EIB and Bonnefield exercise due diligence throughout the investing process, no guarantees can be given to offset a risk of loss and investors should consult with their Financial Advisor prior to investing in the Partnership. The Manager believes that given the character of the private investments that are making up the majority of the Partnership’s holdings, the Partnership has less exposure to the market risk than a similar fund invested in publicly listed securities. The Manager believes the following risks are key to the Partnership’s performance: failure to meet commitments, risks related to the private portfolio investments, agriculture industry risk, equity risk, general economic and market conditions, liquidity risk and marketability and transferability of units risk. Please read the “Risk Factors” section in the Offering Memorandum for a more detailed description of all the relevant risks.

FUND COMMENTARY (As at March 31, 2024)

The Partnership’s return from December 31, 2023 to March 31, 2024 was 2.30% for Series A and 2.59% for Series F units. The Partnership has delivered annualized and cumulative returns since inception on July 31, 2018 for Series A units of 6.05% and 39.47% and since inception on April 30, 2018 for Series F units of 7.01% and 49.25%, respectively. As at March 31, 2024, the asset allocation of the Partnership was 83.52% in Bonnefield Canadian Farmland LP V (“Bonnefield V”), 12.56% in Portland Global Energy Efficiency and Renewable Energy Fund LP (“PGEEREF”), and 3.92% in other assets and liabilities. On November 12, 2019, Bonnefield Financial Inc. (“Bonnefield”) announced the first close of Bonnefield V with \$137 million of commitments. Subsequent closings have occurred, some of which the Partnership has participated in. Bonnefield V is an open-ended fund targeted at institutional and accredited investors. Bonnefield believes that many of the investors are interested in gaining exposure to the attractive attributes of Canadian farmland, such as its ability to hedge against inflation and its low correlation with stocks, bonds and traditional real estate. The Partnership had committed \$1,025,000 as part of the first closing, \$300,000 as part of the second closing, \$165,000, \$300,000, \$335,000, \$150,000, and \$75,000 as part of subsequent closings. As at March 31, 2024, the Partnership has received fourteen capital calls amounting to 100% of its commitment. These capital calls have helped to purchase at least 65 farms across at least five provinces. The fair value of Bonnefield V will include annual appraisals of the underlying assets completed on a quarterly rolling basis. Going forward in 2024, the Partnership will look to increase its commitment to Bonnefield V. Pending new investments and additional capital calls into Bonnefield V, the assets of the Partnership are being invested in short-term investments offered by large banks.

RECENT DEVELOPMENTS

Demand for leasing high-quality farmland remains strong, supported by higher interest rates and the limited availability of quality farmland. Lease rates across the country have generally increased in line with the higher farmland values over the past three years. On leases that were due for renewal in 2023, rental rates increased 22% on average across the Bonnefield LP V portfolio. Bonnefield did not experience any major collections issues in 2023, an indication of the current financial strength of Canadian farmers.

Overall, we believe that the Partnership is currently well positioned to meet its investment objectives for the medium to long term, which by the nature of the underlying investments are expected to hold little correlation to the publicly traded markets.
